

KEY INVESTOR INFORMATION

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Milltrust India Fund, a sub-fund of Emerging Markets Managed Accounts plc Class A Shares (USD)

Objectives and Investment Policy

The Fund's objective is to achieve consistent long term capital appreciation and earn dividend income in the long term.

To achieve the Fund's investment objective, the Fund primarily invests in and gains exposure to equities of companies established and/or operating in India, which are listed on one or more of the stock exchanges in India.

The Fund is actively managed by UTI International (Singapore) Private Limited (Investment Manager). The Investment Manager seeks to select stocks which, when using a top down analysis, it believes have the potential for capital appreciation and/or earn dividend income.

The Fund is diversified by number of companies (by holding securities of 30-50 companies); by sector exposure; and by market capitalisation. The Fund holds a mix of equity securities across the capitalisation spectrum. The Investment Manager places an emphasis on investing in actively traded securities in order to maintain a liquid portfolio.

Shares in the Fund may be redeemed daily. Investors are referred to the section entitled "Subscriptions" in the Fund supplement

Risk and Reward Profile

Narrative explanation of the indicator and its main limitations:

- Historical data may not be a reliable indication for the future.
- Risk category shown is not guaranteed and may shift over time.
- The lowest category does not mean 'risk free'.
Since the Fund has limited performance history, the Risk and Reward Indicator is based on a five year period comprising the actual returns of the Fund and a representative portfolio and a market index for the period prior to launch of the Fund, and resulting in a Risk and Reward indicator of 6. The representative portfolio has an annualised volatility of approximately 18%.
- The Fund does not offer any capital guarantee or protection and your investment is at risk. The value of your investment may fall as well as rise.

The following risks are materially relevant to the fund and are not adequately captured by the indicator:

- Liquidity risk, in extreme market conditions there may be a lack of liquidity in the market which may adversely affect the ease of disposal of assets and the price at which the securities held by a Fund can be sold.
- Country risk, countries may be subject to political changes, government regulation, social instability or diplomatic developments which could adversely affect the economies of the relevant countries and thus the value of investments in those countries.
- The Fund may invest in derivatives to hedge risk. Hedging involves special risks including the risk that the use of hedging could result in losses greater than if hedging had not been used.
- The Fund invests primarily in Indian Rupee (INR) denominated securities. The Fund does not intend to hedge this currency against the Base Currency, so the performance of the Fund may be significantly affected, either positively or negatively, by fluctuations in the relative currency exchange rates.

Charges for this Fund

The charges you pay are used to pay the operating costs of the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	The entry and exit charges shown are maximum figures. In some cases you might pay less - you can find this out from your financial adviser.
Entry Charge NIL Exit Charge NIL	
The Entry Charge is the maximum that might be taken out of your money before it is invested, and the Exit Charge is the maximum that that might be taken out of your money before the proceeds of your investment are paid out.	The ongoing charges figure is based on expenses for the year ending 31 December 2017. This figure may vary from year to year. It excludes performance fees, but includes transaction fees paid to the custodian and its delegates.
Charges taken from the Fund over a year	For more information about charges, please see section “Fees and Expenses” of the Fund’s prospectus, available at www.emmaplc.com.
Estimated Ongoing Charges 2.91%	
Charges taken from the Fund under certain specific conditions	
Performance fee 15% a year of any returns the Fund achieves above the hurdle rate of the S&P BSE 100 (USD) Index.	
Details of the Company’s up-to-date remuneration policy , which describes how remuneration and benefits are calculated and awarded, can be accessed from the following website: www.emmaplc.com . A paper copy of the remuneration policy is also available free of charge upon request to the Company.
